### **DETAILED ACTION**

The following is a response to the amendment filed on February 9, 2005 which has been entered.

#### ***Response to Amendment***

Claims 1-20 are pending in the application. Claims 19-20 are newly added.

-The 102(e) rejections of claims 1-18 has been overcome by the translation of the foreign priority document.

-The double patent rejection of claims 1 and 16-18 has been overcome by the filing of a terminal disclaimer.

#### ***Response to Arguments***

Applicant's request for an initialed copy of the form PTO/SB/08 filed in the information disclosure filed on November 19, 2003 has been acknowledged. However, this particular information disclosure statement has not been presented with this application. The information disclosure statement filed on July 16, 2003 is the only statement presented with this application and a copy of the PTO/SB/08 was initialed and sent with the previous office action.

#### ***Allowable Subject Matter***

Claims 1-20 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-(as to claims 1 and 18) a gear change speed unit for an automatic transmission having planetary gear sets wherein a third gear set has third and fourth sun gears

Art Unit: 3681

meshed with a third pinion, a third carrier receiving and providing rotation between the third and fourth sun gears through a center member coupled to a side member supporting the third wherein a first gear set reduces input rotation at all times and a second gear set combined with the third gear set is a change speed set in combination with all the remaining limitations of claims 1 and 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
